

Liza Turkevych

I am an Architecture Student at QUT, about to enter the final year of my bachelor studies. I'm currently seeking an internship opportunity to complete as part of my degree. Through my studies so far, I have completed a plethora of collaborative projects, working with peers from different disciplines, as well as a collection of individual works, spread across residential, commercial and public typologies. I am passionate about sustainable design and creating spaces tailored for personal experience. I pride myself in my careful attention to detail, both, in my work ethic and design approach. I strive to create thought-out designs with thorough consideration for use of space, centering it around people's experience of the space. I am dedicated, hardworking, organised, reliable and always eager to learn. I enjoy working in teams, and always welcome collaboration as part of my work flow. I am an Australian citizen, born in Ukraine, and am fluent in both English and Russian.

Curriculum Vitae

Education
